SOME OF THE PROJECTS AND INNOVATIONS:

Generation 2000 (G2K)

G2K is an innovation developed and conceptualized by the Harvest Outreach Ministries International (HORMI). The concept is intended to increase awareness of young people about themselves by sharing ideas that influence their wellbeing. HORMI has developed this concept after its observation of many young people especially young girls who have been induced into sexual relationships by the **"SUGAR DADDIES"** and the male youth have been exposed to the **"SUGAR MUMMIES"**. Therefore Generation 2000 Awareness Campaign is designed to promote awareness activities among the young people born after 2000.
